**Coastlink short sea conference, Hamburg,
19-20 April 2011**

24. März 2011

Coastlink is holding a series of conferences under the title of "Challenges abound for shortsea container shipping" at the Hotel Atlantic Kempinski in Hamburg (Germany) on 19 and 20 April 2011. The Coastlink sessions cover a wide range of subjects, both technically and geographically, and so provide the association's members and friends with expanded opportunities for networking. Coastlink Hamburg 2011 will be no exception. Since 2004, Coastlink has held conferences in the UK, France, Belgium, Sweden and Estonia but never in Germany. This omission will be corrected with the Hamburg conference where the focus will be not only on Hamburg but also on other German ports.
